

Basic Environmental Policy of Sumitomo Realty Group

Scope of application : The Sumitomo Realty Group

Date of Establishment : April 2022

Under the fundamental mission to “Create even better social assets for the next generation,” the Sumitomo Realty Group promotes an environmentally conscious management to solve environmental issues through its business activities.

1. Structure

Under the responsibility of the Head of the Corporate Planning Division in charge of ESG promotion, the Group promotes the environmentally conscious management. Important issues are conferred with the Sustainability Committee chaired by the President, and reported to the Board of Directors for supervising as necessary.

2. Compliance with relevant laws and regulations

The Group complies with environment-related laws and regulations.

3. Target establishment and monitoring

The Group establishes targets that contribute to the reduction of environmental loads, and makes further efforts in energy-saving activities. It also monitors the progress toward these targets and strives to continuously improve the efforts.

4. Environmental education and awareness-raising activities

Through an environmental education, the Group works on raising employees' awareness of environmental conservation. It also promotes initiatives that contribute to the reduction of environmental loads in cooperation with its stakeholders.
